

PENCIL RUBBINGS

What you need

soft pencil

newsprint works best

1. Gather your materials and flatten leaves in book before rubbing

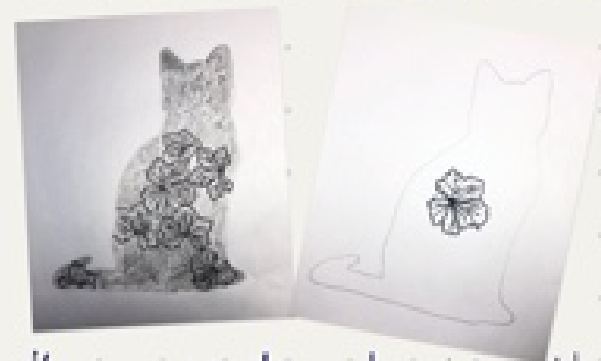

Top tip: It is a good idea to tape the paper down.

2. Place the leaves on your cat outline, and then place another sheet with another cat outline. Then take your soft pencil and rub.

3. Here are my rubbings, I have also used crayons as a colour option

4. You could try drawing the leaves with a felt tip, then try drawing from memory. Enjoy!
